**2RM422** Dura Chrome  
14 x 7 (-43 mm offset)

**2RM450** Machined Black  
14 x 7 (-25 mm offset)

## what is **dura chrome**?

Dura Chrome wheels are coated via PVD, a powder coating process that makes the wheels more durable than standard Chrome plating.

Lasting longer than Chrome plating, PVD-coated wheels are on average several pounds lighter. Dura Chrome resists the negative effects of cracking and peeling that standard Chrome is susceptible to while still giving off the classic Chrome shine and luster.

# 14" TIRES

**2TR180**  
205/40R14 Street Radial Tire

**2TR181**  
23x10-14 Lifted All-Terrain Tire

# PRO-FORMANCE UPGRADE

Power, Performance, Control... all at your fingertips.

## PRO-FORMANCE™

powered by NAVITAS

### Vehicle Operating System

Achieve maximum performance, speed, and acceleration while optimizing torque and braking assistance with the PRO-FORMANCE™ system powered by NAVITAS.

600 A DC Motor Controller

On-the-Fly Adjustable Programmer

**Range Control** Lower the speed and increase your range. The controller automatically reconfigures to run more efficiently at lower speeds.

**Regen** Control regenerative braking for safety and efficiency.

**Acceleration** Adjust how fast your vehicle accelerates.

**Speed** Adjust your vehicle's top speed.

**Key Lock** Lock to set golf car at desired speed; disable the dials until the system is unlocked.
